PROJECTS

Smart Expense System

Jan 2025 – Apr 2025

- **Built a full-stack expense tracking web app** with JWT auth, role-based access, and transactional email via Nodemailer using React.js, Node.js, and MongoDB
- Implemented **PWA offline support** with service workers and optimistic localStorage auth for seamless session persistence
- Deployed on **Vercel** (frontend) + **Render** (backend) + MongoDB Atlas; resolved mobile responsive UI bugs and SMTP connectivity issues
